

Sustainable Landscape Design
MG Training Class by Signe Danler

Resource Materials

There are many, many books and publications available on landscape design, sustainable gardening, and related topics. Here are just a few that I have found useful, and used as resources material for this class.

OSU Extension Publications

VanDerZanden, A.M. and J. McNeilan. **Basic Design Concepts for Sustainable Landscapes**. 2002, OSU Extension Publication EC 1533.

Many of the items here can be found in the reading from your Master Gardener Handbook chapter. However, you may find the printable site analysis sheet to be useful.

VanDerZanden, A. M and J. McNeilan, **Plant selection for sustainable landscapes**. July 2007, OSU Extension Publication EC1534.

Books

Cook, Thomas W. and Ann Marie VanDerZanden, **Sustainable Landscape Management**. 2011 John Wiley and Sons, Inc.

Darke, Rick and Douglas Tallamy, **The Living Landscape**. 2014 Timber Press.

Rainer, Thomas and Claudia West, **Planting in a Post-Wild World**. 2015 Timber Press

Reed, Sue and Ginny Stibolt, **Climate-Wise Landscaping: Practical Actions for a Sustainable Future**. 2018 New Society Publishers. *An exceptionally accessible and practical book.*

VanDerZanden, Ann Marie and Steven N. Rodie, **Landscape Design: Theory and Application**. 2008 Thomson Delmar Learning

Young, Beth O'Donnell, **The Naturescaping Workbook**. 2011 Timber Press.

and

The Oregon Rain Garden Guide

A guide to building sunken-bed rain gardens to collect and filter runoff water. 2010
